Equipment • Parts • Service

About GS Equipment

GS Equipment is led by founder Ray Ferwerda Sr. and his son Ray Ferwerda Jr., who runs the day to day operations. Founded in 1960, we have grown from a single location to seven branches, covering the entire state of Florida.

Everyone on our staff is dedicated to serving our customers to assure they are completely satisfied with their equipment. We are an established dealer, and we guarantee excellent service.

The Ferwerda family has a long history in the construction industry. Brothers Ray and Koop Ferwerda created the first hydraulic excavator that became the Gradall excavator line.

Top Quality Equipment Brands

GS Equipment has carefully chosen the most reliable brands for each type of equipment we offer. Our customers expect excellent performance from our equipment, and we make sure that's exactly what they have all day, every day.

Parts and Service

We consistently maintain a parts fill rate of over 90% for all products we represent. We offer maintenance and repair services for all equipment brands and can find any part you need quickly.
